

## Man to Drive Blindfolded

Doctor de Zita, nationally known stunt pilot, whose specialty is driving an automobile through city traffic while wearing a blindfold, is to make two appearances on the streets of San Francisco next Saturday.

With Chief Police Quinn officiating, the first drive is scheduled to start at 2 p. m. from Fifth and Market streets. The route laid out is to the Ferry building, back up Market to McAllister and to the City Hall. The blindfold driver is then to continue to Fillmore street, along Fillmore to Haight and down Haight to Eleventh and Market, where the run will end at the showrooms of William L. Hughson Company, which organization is furnishing a new Ford V-8 for the exhibition.

At 8 o'clock Saturday evening de Zita is to repeat his stunt over the same course. It is claimed that de Zita is the only man in the United States who attempts a blindfold drive at night.

A San Francisco police officer is to apply a blindfold cotton, adhesive tape and gauze bandage before each drive.
