INTRODUCTION TO

1864 CENSUS FOR RE-ORGANIZING THE GEORGIA MILITIA

The following lists were abstracted from microfilm located at the Georgia Department of Archives & History in Atlanta, Georgia. The re-organization of the militia in the state of Georgia was vitally important for the protection of women, children, and invalids living at home during the war years. Governor Joseph Brown had insisted the state needed protection and had continually attempted to provide state troops which were, as soon as they were formed, taken into the Confederate Army. Since there was no homefront protection, Governor Brown and the Georgia Legislature issued an order for a statewide census which would enable a re-organization of the state militia.

The beginning of the microfilm offers the following explanation and description of the lists:

**"STATE OF GEORGIA
OFFICE ADJUTANT AND INSPECTOR GENERAL**

**LIST OF MEN ENROLLED IN THE GEORGIA MILITIA BY MILITIA DISTRICTS
AS REQUIRED BY THE ACT OF 14TH DECEMBER 1863,
FOR RE-ORGANIZING THE MILITIA OF THE STATE**

The parts of the Militia re-organization act of December 14, 1863, which relate specifically to these records are as follows:

SECTION II. Be it further enacted, that within four days after being notified of his appointment, it shall be the duty of each Aid-de-Camp to commence the enrollment of all free white males resident in his District, who are or shall be of the age of sixteen years, and not over sixty years, or who may come to reside within the District, except those who shall actually be in the Army or Navy of the Confederate States, or in the State service. The enrollment shall be by Company Districts, and shall show the age, occupation and nativity of each person enrolled, the number of the Company District in which he may reside, and if any exemption is claimed, the ground of it.

SECTION III. And be it further enacted, that it shall be the duty of the Aid-de-Camp, within ten days after the enrollment has been completed in his district, to forward complete lists, in duplicate, of the enrollment in each county of his district, to the Adjutant and Inspector General, and to file with the Clerk of the Superior Court in each county, a copy of the enrollment in his county; and the Aid shall be empowered and required, when there are but few persons enrolled in a particular company district, to incorporate and consolidate, subject to the approval of the Governor, two or

more adjoining company districts, into one, reporting the consolidation made, and the numbers of the company district so combined, and in cities to divide districts.

SECTION XIX. Be it further enacted, that in making the enrollment provided for by this act, the enrolling officers shall report by name all persons having efficient guns, describing the gun, whether rifle, musket, or shot-gun, and those who have not; also such persons who can furnish their own horses, saddles and bridles, and serve as mounted men.

SECTION XXIV. And be it further enacted, that no person shall be enrolled under this Act who is subject to conscription under the Conscription Act or Acts of the Confederate Congress. The enrollment lists are filed alphabetically by county. No lists were found for the counties of Burke, Catoosa, Chattooga, Dade, Dooly, Emanuel, Irwin, Johnson, Montgomery, Pulaski or Wilcox. Within the counties the lists are arranged by Georgia Militia Districts in numerical order. In cases in which two or more districts have been combined on one sheet (to form a single militia company) it is arranged in numerical order by the first-named district. In many instances two copies of each list are included.

Also included within each county are typed copies of the enrollment lists which were prepared by the Georgia Pension and Record Department between 1920 and 1940. In preparing these typed lists the staff of the Department often altered the spelling of names to a more conventional form, assuming that the enrolling officer had misspelled them. "Asque" and "Ballue", for instance, have been changed to "Askew" and "Ballew". Names on the typed lists, unlike most of the originals, are in alphabetical order."

The lists as offered in this book were first abstracted from the typed lists prepared by the Georgia Pension and Record Department. They were then checked against the handwritten original lists for additional genealogical information and reasons for exemptions.

In searching for specific persons, please note the various spellings of names. The enrolling officer often spelled a name the way it sounded rather than the way a person actually spelled his name. For example, "Cochran" might be "Cockran", and, a name that should be spelled with a double "r", "s" or "t", may only have a single letter. In some cases, the handwriting or quality of the microfilm was difficult to decipher and I may have abstracted it incorrectly.

Many of the men on these lists enlisted in Confederate service or served for six months in a state unit after these lists were taken. Original records of Georgia's state units are stored in the Georgia Department of Archives & History, and the microfilms of Confederate and state service records are available for researchers at that facility.

In closing my remarks about this book, I would like to thank the staff of the Georgia Department of Archives & History for preserving these records and making them available to researchers. I would also like to thank my husband for his patience through the months it took to abstract and prepare the manuscript; and, last but not least, I thank my parents for instilling in me a love of history which guided me in the right direction.
