INTRODUCTION

These Marriage Records were found in the Basement of the Russell Co., Ky. Court House in Jamestown, Ky. Most have been compiled in books that I have already compiled in Books I & II, Book III & Books III, IV & V. Most of the Marriage Records compiled in this Book are those which were missing from the original Books, written on scraps of paper & tucked away in the basement along with many other records. Many of the scraps of paper contain information not found on the other records that I have compiled and will be included in this Book and noted as such.

The original spelling is used & researchers are reminded to consult all possible spelling of the name.

The following symbols will be used;

A/1, meaning additional information added to a marriage record already recorded in other Books.

N- will be used for new records not found in the Books already compiled.

Grooms are in alphabetical order & Brides are full-name indexed.

Loose Paper Marriages
