Blue Springs Cemetery is one of the largest in Newark, Independence County, Arkansas. It is located on Long Street in Newark, which runs beside the Town and Country grocery store. A sign on Hwy 69 clearly points the way. Blue Springs is divided into 10 sections by the paved lanes that allow easier access to the gravesites. Two, one on each end, run the full width of the cemetery. The other eight are situated between these two bigger divisions; three at the front of the cemetery; the other five directly behind those three. In order to make it easier for someone who might wish to visit the cemetery and find the tombstones; I've arranged the names alphabetically in each section. The sections are labelled A-J; starting with the section that runs the full width of the left side as you stand facing the cemetery, then the front sections, ending with the section that runs the full width of the right side; returning to the furthest section left of the back sections and moving right.
