=====

This cemetery lies in Fannin county , most of the town is in Grayson County. It is on highway 898 just on the north east corner of town. It is in 2 parts; The older part is on the south side of the road, the newer part is on the north and was opened when the flu epidemic of 1918 sent so many to the cemetery. However there is a third part not seen except from the very back, south east corner of the old part. It is the African American Oak Hill, see the bottom for details. Most of the information comes from the stones, but much of it from my records. I have looked through death records and added information for years. Please email me with additions as I try to keep current.
