MONTGOMERY COUNTY, TN MARRIAGES

1838-1867

Where two dates appear on an entry, the first one is the date license was issued, the second (in parentheses) the date marriage was solemnized. If only one date, it usually means that the date of execution was the same as the date of license issuance.

Sometimes the execution of the marriage was not reported to the courthouse, and occasionally the clerk failed to note in the marriage book that the license was returned. We would usually make a notation in the entry to indicate the non-execution of a marriage if the book so stated.

The marriages are arranged alphabetically, the first half of the book by groom--the second half by bride.

The records included in this book were transcribed by us directly from microfilm of the original marriage books. Error, where it occurs, may be attributed to us, or to the clerks of the period, many of whom obviously did an appalling sloppy job of entering the information.

If the bride and groom were black, a B is placed at the end of the entry.

It should be remembered that this and other marriage books we have prepared are indexes, not including all the information to be found in the original marriage book. Such data as names of bondsmen, ministers, justices of the peace, churches etc. is omitted. Often such information is helpful to the researcher. Consequently the serious researcher, to obtain this additional information as well as to check on the accuracy of the transcriber, should examine the original marriage record if at all possible, or at least another marriage record book which may contain this data.
